

## Child Life Activity 2: 2023 CRRAB virtual symposium

### 'Puppet masters puppet making'

This fun, open ended puppet making activity gives children the opportunity to create their own cool puppet characters. Kids will get crafting and make interesting creatures, people or animal puppets with their own flair!

Kids can share the unique features and qualities of their puppets, whether it's a set of funny feathers or 3 legs for hopping and jumping, each one will be different!

We will have fun telling stories about our puppets and exploring how each of our puppets meet and interact with each other through a group storytelling activity. This puppet activity fosters and creates opportunities for group sharing through creative conversation and creative arts.

#### ***You Will Need:***

- Paper bags (even old socks work!)

- Colourful construction paper and/or plain paper
- Markers, crayons, pens, paint
- Scissors
- A photo (or photos) of your child, family and friends
- Stickers and googly eyes
- Collage materials – pom poms, felt, photos cut from magazines, calendars, cards, colourful papers, and/or pictures printed off the web
- Glue or glue stick
- Popsicle sticks and/or tongue depressors
